PROFESSIONAL PROFILE

Senior Front-End Developer with 20+ years' experience delivering accessible, responsive and user-focused digital solutions within financial services and corporate environments. Proven track record designing and launching business-critical websites, registration platforms and digital experiences supporting global audiences across EMEA, APAC and North America. Extensive expertise in HTML, CSS, JavaScript, accessibility (WCAG), CMS platforms and stakeholder management, complemented by modern React and full-stack development skills demonstrated through personal projects.

CORE SKILLS

- Front-End Development: HTML5, CSS3, JavaScript (ES6+), jQuery, Bootstrap, Responsive Design, Cross-Browser Compatibility
- Modern Technologies: React (currently training), TypeScript (currently training), ASP.NET Core, REST APIs, Entity Framework Core, SQLite
- Accessibility & UX: WCAG 2.x, ARIA, Semantic HTML, Screen Reader Testing, Inclusive Design, Information Architecture
- Tools & Methods: Power Apps, Power Automate, SharePoint, Git, GitHub, CMS Platforms, Agile Delivery, Stakeholder Management, Requirements Gathering, Code Reviews

TECHNICAL PROJECTS

Full-Stack Tournament Management App

Designed and developed a full-stack web application for managing 5-a-side football tournaments.

GitHub: <https://github.com/rk96884>

Live Demo: <https://rk96884.github.io/Football-Tournament-frontend/>

- Built a responsive React front-end using Hooks, routing and reusable components.
- Developed RESTful APIs using ASP.NET Core, Entity Framework Core and SQLite with AI-assisted development techniques.
- Implemented full CRUD functionality for tournaments, teams, players and fixtures.
- Integrated front-end and back-end services to provide real-time data management and persistence.
- Deployed the front-end via GitHub Pages and the back-end via Render.

PROFESSIONAL EXPERIENCE

JPMorgan Chase | Lead Front-End Web Developer | October 2013 – Present

- Created a SharePoint-based web request system that overcame the lack of a native workflow by building a JavaScript-driven dynamic form and a custom SharePoint Designer workflow, resulting in automated request routing, email notifications, and a dashboard that improved how event planners and the web team manage and track event-related web requests.
- Developed a custom SharePoint technology-booking calendar using JavaScript, SessionStorage and JSON validation to overcome the lack of an out-of-the-box solution, preventing double-bookings and enabling the events team to reliably schedule iPads, printers and Chromebooks.
- Upskilled through Microsoft Power Platform training to migrate SharePoint 2016 workflows to SharePoint Online, rebuilding legacy processes in Power Automate to ensure seamless continuity of key tools.
- Deliver 30+ responsive event websites annually, supporting global corporate events attended by over 3,000 participants across EMEA, APAC and North America.
- Lead the design and development of registration platforms, event microsites and digital communications using HTML, CSS, JavaScript, jQuery and Bootstrap.
- Manage multiple concurrent launches while consistently meeting tight deadlines and maintaining high quality standards.
- Collaborate with event planners, business stakeholders and technical teams.
- Champion accessibility best practices and inclusive design.
- Mentor junior developers and conduct peer code reviews.
- Recognised by event planners and stakeholders for reliability and high-quality solutions.

Citigroup | Senior Web Developer | October 2007 – August 2013

- Led the end-to-end design and development lifecycle for corporate digital projects.
- Rebuilt key web platforms using HTML5, CSS3 and jQuery.
- Designed information architecture, wireframes and user journeys.
- Implemented and administered TeamSite CMS solutions.

Royal Mail | Web Developer (Contract) | April 2007 – September 2007

- Improved accessibility, standards compliance and cross-browser compatibility.

Exchange Systems Technology | Senior Web Designer | June 2001 – March 2007

- Led corporate rebranding and digital design initiatives.
- Developed reusable front-end frameworks and AJAX interfaces.

Entranet | Creative Web Designer | July 1999 – March 2001

- Delivered digital solutions for major financial services clients including AXA and HFC Bank.
